---

The Knox Club practises Responsible Serving of Alcohol (RSA).

Our staff are trained in RSA procedures, and it is our policy to serve members and guests responsibly while providing a safe and friendly environment for patrons and staff.

We ask for the co-operation of all patrons to assist us in meeting our legal obligations under the Liquor Control Reform Act 1998.

Accordingly, the following practices apply to all functions held at The Knox Club:

- While the final decision regarding RSA matters will always remain the responsibility of the venue, we require the hirer to nominate a responsible person to assist our staff with any liquor service issues during the function.
- Minors must be appropriately identified. Under no circumstances are underage guests permitted to consume alcohol.
- Party shots and double spirits are not served at The Knox Club.
- Water and non-alcoholic beverages will be available at all times.
- Guests will be asked before alcoholic drinks are topped up.
- The Knox Club reserves the right to limit the quantity of alcohol consumed by any guest and to cease the supply of alcohol to any guest or guests if they appear intoxicated.
- Guests who are intoxicated will not be served alcohol and may be required to leave the premises.
- The Knox Club reserves the right to close a function if guest behaviour becomes unacceptable.
- All guests are encouraged to arrange safe transport home. Our staff can assist by arranging a taxi for any guest considered unfit to drive.

We respect our neighbours and encourage patrons to leave the premises in a manner that does not disturb the amenity of the surrounding area.

By booking a function at The Knox Club, it is understood that you agree with and accept the terms of this policy. Your co-operation with the objectives outlined above forms part of the contract between both parties.

The Knox Club will not be liable for any loss experienced by you or your guests as a result of implementing any aspect of this policy.

Thank you for considering The Knox Club for your function.
